

**Motion Computing LE-1700**

**Motion Computing F5**

**Options**

The Motion FlexDock provides a docking/workstation environment for the LE series Tablet PC;

- Provides 3x USB, 1x VGA, Audio In, Audio Out, and 1x 10/100/1000 Ethernet ports;
- Provides a swivel design mechanism allowing the tablet screen to be used in landscape or portrait format, as well as angle adjustment of the screen;

The FlexDock can be used on a desktop, or with arm-mounts, wall-mounts, medical carts, or vehicle mounts; Includes AC power adaptor.

The Motion Convertible Keyboard provides a unique snap-on keyboard and mini-dock solution for the LE-series tablet;

The Motion C5/F5 Docking Station provides a docking/workstation environment for the C5 Tablet PC;

- Simple, smooth design for ease of cleaning;
- Provides 3x USB, 1x VGA, and 1x 10/100 Ethernet ports;
- Provides charging bay for additional standard battery;
- Provides 3 viewing angles: 15° - charging; 25° - keyboard use; 38° - pen use.

The C5 Docking Station can be used on a desktop, or with arm-mounts, wall-mounts, medical carts, or vehicle mounts;

Includes AC power adaptor.

Mobile Dock vehicle/wall mount docking station, with/without power and interface can be mounted to cabinets, poles, walls or in-vehicles;

Clips on the front or back (if extended battery not installed) of the tablet when not in use;

Provides 1x USB, and 1x Motion Accessory port.

With an ultra compact footprint, the USB Keyboard provides excellent feel and operation in a lightweight and small size. The USB Keyboard has 88 keys and integrates a touch pad and mouse buttons that can be used in addition to the Digitizer Pen. The keyboard is a highly recommended accessory and works equally well on the road or at your desk. The keyboard requires a single USB Connection. Compatible with all Motion Tablet PCs.

NOTE: For Motion C5 or F5, you must have the Docking Station for connectivity.

Standard Battery: Lithium-Ion 38.5WHr capacity, with battery life approx. 3 hours;

Provides 3x USB, 1x VGA, and 1x 10/100 Ethernet ports.

Easy Connect module easily snaps on/off the docking connector;

Provides 1x USB, and 1x 10/100 Ethernet ports.

Ready Dock C5 5-bay charging/security storage dock:

Lithium-ion standard battery with 40WHr capacity, with battery life approx. 3 hours.

Optional Extended Battery: Lithium-Polymer 40W/HR capacity,  
Combined battery capacity 78.5W/HR, with battery life approx. 6-7 hours.

The Motion Battery Charger rapidly charges two Standard Batteries in under 2 hours, or one Standard and one Extended Battery in about 3 hours. The convenient, grab & go toaster style design allows one handed operation and no cable fuss. It features an LED status indicator and can be powered by the tablet's AC Power Pak (or Auto/Air Power Adapter). Set includes: Battery Charger and AC Power Pak. (Battery not included)

Operate your Motion Tablet PC and charge your battery while travelling. The Motion DC Auto/Plane Adapter plugs into a standard automobile cigarette

The USB Modem provides the LE-Series Tablet PC with a standard analog RJ-11 connection. It's an ideal backup accessory for those times when Wi-Fi service is unavailable. It is compact, has an integrated USB cable and is powered directly by the tablet making it the optimal solution for travel. It is ideal for field sales & service personnel, roving customer service representatives, road warriors, or office workers who need a modem solution

DVI-D is a new form of video interface technology developed to maximize the video output quality for driving external digital flat panel displays. Motion's DVD-D Display Cable allows you to attach an external digital flat panel display directly to your LE-Series Tablet PC - providing a faster, higher-quality image than with standard analog VGA due to the nature of the digital format and the elimination of the analog conversion process required for analog VGA displays. The DVI-D Display Cable is 5' long and supports any standard digital flat panel LCD with a female DVI-D or DVI-I port. The DVI-D Display Cable is an ideal product for viewing high resolution images such as X-rays, CAD drawings, graphical illustrations, or for long distance connections to a data projector.

The USB Modem provides the C5/F5 Tablet PC with a standard analog RJ-11 connection. It's an ideal backup accessory for those times when Wi-Fi service is unavailable. It is compact, has an integrated USB cable and is powered directly by the Easy Connect Module making it the optimal solution for travel. It is ideal for field sales & service personnel, roving customer service representatives, road warriors, or office workers who need a modem solution
