THE CURE FOR THE COMMON WORKFLOW

Compact. Lightweight. Easy to disinfect. The Motion Computing® C5v enables true mobile point-of-care. Get the exceptional performance of the Intel® Core™ i7 vPro™ processor and the convenience of accessing patient data at the bedside.

→ **THE MOTION C5v** ←

DESIGNED WITH CLINICIANS IN MIND

Deliver mobility and reliability at the point-of-care with the Motion® C5v. The industry's first Mobile Clinical Assistant (MCA), the C5v was designed specifically for healthcare environments in partnership with Intel® Health and based on input from thousands of clinicians worldwide. Lightweight, rugged and fully-sealed to ensure compliance with infection control protocols, the C5v is built for demanding healthcare environments.

RUGGED, POWERFUL AND HIGHLY MOBILE

From the hospital to home care, the rugged design can handle even the toughest conditions. The C5v now comes standard with Gorilla™ glass for **up to four times the strength in breakage resistance**¹ over standard displays. Add in View Anywhere® technology and users get the best tablet PC viewing experience available. And now with Intel® Core™ vPro™ technology, the C5v offers new levels of power, security and manageability. With a **50% improvement in performance**², a nearly **30% increase in battery life**², **hot-swap battery** feature and enhanced remote management capabilities, both clinicians and IT personnel can feel confident that the C5v is available and patient data secure – freeing up valuable time and resources to focus on patient care.

Easily disinfected, lightweight and rugged, the C5v was designed for healthcare environments.

Motion
Computing®

REAL-TIME PATIENT INFORMATION

Imagine every bit of patient information that must be referenced on a given day. Now imagine that it's accessible on-demand in a portable, lightweight device that weighs only **1.5kg³**. With a highly ergonomic design, the Motion C5v keeps the most up-to-date patient information at your fingertips. Increase productivity, save time, improve documentation and reduce errors by accessing patient data at the bedside. Use the optional **barcode scanner** and **RFID reader** for medication administration and patient identification. Take a photo with the integrated **digital camera** and quickly add it into the Electronic Medical Record (EMR) or collaborate with a variety of caregivers using the **web camera**.

SAFE AND SECURE SHARING

Send your entire team secure, up-to-the-minute patient information without ever leaving your patient's side. The Motion C5v seamlessly runs EMR applications and it's equipped with built-in **Wi-Fi®**, **Bluetooth®** and optional **Gobi™ 2000** to keep you connected to the information you need and to help you easily share it with other caregivers. Plus, it keeps sensitive information secure with the **biometric fingerprint reader** and optional **smart card**. Make more informed decisions. Eliminate double documentation. Let the Motion C5v help you streamline your work environment and enhance patient care.

RUGGED FROM THE INSIDE OUT

Internal magnesium frame
Fully sealed and IP54-rated
Meets MIL-STD-810G
64GB SSD (optional)

INDUSTRY-LEADING DISPLAY

Hydis AFFS+ LED backlit
View Anywhere® technology
Gorilla™ glass durable display

LIGHTWEIGHT AND HIGHLY MOBILE

Only 1.5kg³ (3.3lbs)
Built-in handle
Hot-swap battery feature
Built-in wireless connectivity

OPTIONAL INTEGRATED FEATURES

3.0-Megapixel camera
Front-facing web camera
Barcode scanner
RFID reader

POWERFUL YET EFFICIENT

Intel® Core™ i7 vPro™ Processor (1.2 GHz) or
Intel® Core™ i5 vPro™ Processor (1.06 GHz)
Supports Windows® 7 and Windows® XP
1.8" HDD with 160 GB capacity and up to 4GB of RAM

The C5v improves accuracy and documentation with up-to-date patient information.

ABOUT MOTION COMPUTING

Motion is a global leader in integrated mobile computing solutions, combining world-class products with services customized for the unique needs of target vertical markets. The company's enhanced line of rugged tablet PCs, mobile point of care solutions and accessories are designed to increase mobile productivity while providing portability, security, power and versatility.
