

## C5 ReadyDock™ with Ethernet

### MOTION TABLET PC

ReadyDock C5E is for the Motion® C5 Mobile Clinical Assistant (MCA)

### BENEFITS

Conveniently charges multiple C5s while docked

Precision fit for easy docking and undocking

Smooth surfaces for easy cleaning/disinfecting

Centralized C5 storage

Lock-enabled cabinets for added security

Organized power supply configuration

### ETHERNET BENEFITS

Remote image management

Provides IT access to tablet data at all times, even during charge cycles

Remote access to patient data on charging tablets always available and updatable

The C5 MCA is a hospital-grade device specifically designed for use by clinicians across healthcare environments. Its rugged, disinfectable design, superior ergonomics and integrated features provide improved productivity while supporting the “five rights” of patient care (right patient, right time, right medication, right dosage, and right route).

The ReadyDock C5E is the most efficient way to manage remote image updates, house, charge, and secure your Motion C5 Tablet PCs. The lightweight cabinet can be configured to store, charge and protect up to five C5 Tablet PCs, allowing you to configure your ReadyDock for optimal space management. The white powder coated surface is easily cleaned and complements the aesthetics of your C5 Tablets perfectly.
