

Motion® J3500 WHAT'S NEW

Exceptional Performance, Durability and Flexibility

A New Level of Rugged Mobile Performance with the Motion J3500, Available with Touch

Now available with a capacitive dual touch option, the J3500 enables mobile workers to take advantage of the natural gesture navigation features built in Windows® 7 and other software applications. Optimized for digitizer and touch input methods, users now have expanded interaction and input options – digitizer, touch, keyboard and voice. Motion's touch technology includes a host of capabilities to improve mobile productivity, including:

- The use of two finger gestures simultaneously
- Palm rejection that distinguishes between intentional and false touch
- Pen recognition that prevents pen/touch confusion, enabling an easy switch between input modes
- Compatibility with Windows 7 touch gestures – pinches, flicks, drags or taps for scrolling, panning, rotating and zooming

New Intel® Core™ vPro™ Technology

Now with the Intel® Core™ i7 vPro™ processor or Core™ i5 vPro™ processor, the J3500 offers new levels of power, security, and manageability. Supporting Windows® 7 or Windows XP, the J3500 fits seamlessly into virtually any enterprise environment. Key benefits of the integrated Intel Core vPro technology include:

- Nearly 40% performance improvement¹
- Enhanced remote management capabilities
- Increased levels of security, including Intel Anti-Theft and Computrace®

Integrated for Mobile Productivity

With the latest in wireless connectivity options and enhanced integrated features, the J3500 gives mobile workers the power to securely access, share and document information, no matter where work takes them.

- Enhanced 3.0 megapixel digital documentation camera (optional)
- Gobi™ 2000 mobile broadband with GPS functionality (optional)
- Computrace® Complete (optional)
- Integrated biometric fingerprint reader
- Many accessory options for workflow adaptation (backward compatible with J3400)

¹ Based on MobileMark® 2007 performance testing.

² Based on internal Motion strength tests versus standard glass.

Rugged, Powerful and Connected

Designed to handle the bumps and drops of mobile environments, the J3500 is built from the inside out to be rugged, yet lightweight, enabling mobile workers to be productive in virtually any environment. Built-in durability features include:

- Gorilla™ glass option for up to 4X breakage resistance²
- MIL-STD-810G protection against drops
- IP52-rated against dust and moisture
- Optional 64GB or 128GB solid state drive (SSD) for extreme shock and vibration protection
- Shock mounted display and hard disk drive (HDD)
