Nurses, meet your new StyleView®

Personalize your cart to suit your team’s workstyle and flow. That’s the genius behind our 5th generation StyleView medical carts.

We’ve been listening. You’ll find all the great features that have made StyleView a market leader, plus new design advancements. Now you have the broadest options to create a comfortable, fully adjustable med cart – one that supports you and the care you give.

Your cart. Your way.

StyleView.ergotron.com
Build it for your workflow.

Your way

- **True ergonomics:** our commitment to ergonomics is unsurpassed – StyleView carts, even with two drawers, move a full 20" up and down, ensuring relaxed data entry whether seated or standing.
- **Broader portfolio and choices:** for example, Ergotron offers the largest selection of non-powered carts with locking drawers.
- **Safe and secure:** individually locking drawers on our powered carts and locking rows on our non-powered carts assure a superior level of safety.

We’ve been listening

- **Scalable cart design:** upgrade with drawers or modify your existing drawers – StyleView grows with you.
- **Unique accessories:** our new Storage Bin accessory accommodates standing bottles of liquid, and our Envelope Drawer has both electronic and key access.
- **Quick to respond:** we’ve improved our locking med dispensing drawers, and added more compartments per drawer at your request.

New features for nurses and IT

1. Sliding worksurface for easy access to CPU
2. Handle latch releases worksurface
3. External lock for added security
4. CPU security cable (inside CPU compartment)
5. CPU compartment power receptacles (US only)

Enterprise Management: **FREE** StyleLink Software secures access to drawers and allows remote monitoring/configuration with established Microsoft tools.
