Our latest StyleView® solutions: industry-leading carts and point-of-care wall mounts

StyleView: Point-of-Care and Everywhere

Mounting and Mobility Solutions for Your Entire Facility
Point-of-care and everywhere

Healthy computing starts with understanding the diverse needs required to bring EMR, eMAR, PACS and CPOE to the point of care. With almost 30 years experience in creating ergonomic solutions for computer users worldwide, and 20 years in healthcare alone, Ergotron is uniquely qualified to help you configure options and design workstations that fit workflow throughout the entire facility.

LX Sit-Stand Arm highlights
- 20° (51 cm) height range allows users to move between sitting and standing positions while they interact with the display
- Holds a large display, up to 25 lbs (11.3 kg)
- Secure installation – locking connections between arm, extension and base
- Rotation Stop on wall mount base limits turn of extension base connection to 180°, preventing extension from contacting wall
- Ergonomic Keyboard Arm is very stable for extensive data entry

See how Ergotron products are used every day. Healthcare Interactive Virtual Tour healthcare.ergotron.com

For display compatibility, visit www.ergotron.com
Ergotron products allow computer systems to be easily and ergonomically positioned for any user. The effect? Minimizing space requirements and maximizing efficiency.

- **Ease of motion** – quick adjustment; easily adjust to the point-of-care
- **True ergonomic designs** – create a comfortable work environment for you
- **Space-saving technologies** – place equipment where needed

## OSHPD
Office of Statewide Health Planning and Development

Ergotron’s wall mount products received OSHPD OPA Pre-approval numbers for mounting in hospitals and healthcare facilities throughout California on October 13, 2009. These standards help ensure patient safety during an earthquake and help make it possible for facilities to continue to function and care for the injured after an earthquake.

**StyleView Sit-Stand Enclosure**

- **Part #**
  - (color)
  - 60-610-062 (white)
  - 60-610-060 (black)
  - 60-595-062 (white)

- **Includes**
  - Enclosure, velcro kit (attaches keyboard to keyboard tray), cable management wrap, antimicrobial wrist rest. Wall footprint 38.2” x 26.6” (97 x 67.5 cm)
  - Enclosure, wall plate, mounting template, vertical lift, slide-out keyboard tray, wrist rest, mouse pouch, scanner holder, monitor mounting hardware, wall mounting hardware, keys

- **Typical LCD Size**
  - ≤ 22”
  - Maximum monitor physical dimensions: 20.5” W x 13.5’’ H x 2.5” D (52.1 x 34.3 x 6.4 cm). Monitor depth greater than 2.5” (6.4 cm) is allowable, however, screen will protrude beyond profile of unit in such cases

- **Weight Capacity**
  - ≤ 39 lbs (17.7 kg)
  - Listed weight capacity represents total load, including monitor and contents of keyboard tray, mouse pouch and scanner holder. Maximum load capacity: monitor pivot 18 lbs (8.2 kg); CPU compartment 20 lbs (9.1 kg); door/worksurface 50 lbs (22.6 kg)

- **VESA**
  - MIS-D

- **Depth**
  - ≤ 22”
  - 3.8” (9.7 cm) closed 19.3” (48.9 cm) open

- **Warranty**
  - 5 years
  - 1-year warranty on all electronic components (excludes AA batteries)
Workurface with pull-out keyboard tray facilitates caregiver workflow

1. Patented CF lift-and-pivot motion technology provides premium 25° (63.5 cm) LCD height adjustment, portrait-to-landscape rotation and 30° tilt
2. Durable, easy-to-clean exterior composed of aluminum and high-grade plastic
3. Integrated mouse and barcode scanner holder provide easy access
4. Fold-down worksurface/keyboard tray to support workflow needs. Worksurface is 22.75”W x 10.6”D (57.8 x 26.8 cm). Keyboard tray is 18.6”W x 9”D (47.2 x 22.8 cm)
5. Ergonomic back-tilt keyboard tray ensures wrists remain in a neutral position during data entry
6. Clean, concealed and neat routing of cables through the expansive cable management system
7. Extend LCD and keyboard up to 43” (109 cm) from wall; fold equipment back out of the way when not in use. With worksurface in storage position, system depth is as little as 8” (20.3 cm). With keyboard in storage position, system depth is as little as 12” (30.5 cm)
8. Optional Extender Arm (45-261-026) increases range of motion for even greater reach

#### Interactive Arm LD
- **Part # (color)**: 45-361-026 (polished aluminum)
- **Typical LCD Size**: ≤ 42”
- **Weight Capacity**: 7–25 lbs (3.2–11.3 kg)
- **Lift**: 20” (51 cm)
- **Tilt**: 75°↑ / 15°↓
- **Pan**: 180°
- **Rotation**: 360°
- **VESA**: 75 x 75, 100 x 100, 200 x 200, 200 x 200 mm
- **Depth**: 4.5” (11 cm)
- **Extension**: 17” (43 cm)
- **Warranty**: 5 years

#### Interactive Arm HD
- **Part # (color)**: 45-296-026 (polished aluminum)
- **Typical LCD Size**: 30–60”
- **Weight Capacity**: 18–40 lbs (8.2–18.2 kg)
- **Lift**: 20” (51 cm)
- **Tilt**: 25°↑ / 15°↓
- **Pan**: 180°
- **Rotation**: 10°
- **VESA**: 100 x 100, 200 x 200, 200 x 200 mm
- **Depth**: 5.5” (14 cm)
- **Extension**: 24” (61 cm)
- **Warranty**: 5 years

#### Interactive Arm VHD
- **Part # (color)**: 45-304-026 (polished aluminum)
- **Typical LCD Size**: 30–60”
- **Weight Capacity**: 35–70 lbs (15.9–31.8 kg)
- **Lift**: 20” (51 cm)
- **Tilt**: 20°↑ / 15°↓
- **Pan**: 20°
- **Rotation**: 10°
- **VESA**: 200 x 100, 400 x 200, 400 x 200 mm
- **Depth**: 6.5” (16.5 cm)
- **Extension**: 28” (71 cm)
- **Warranty**: 5 years

#### Glide Wall Mount HD
- **Part # (color)**: 61-061-085 (black)
- **Typical LCD Size**: 30–60”
- **Weight Capacity**: 20–40 lbs (9–18 kg)
- **Lift**: 18” (46 cm)
- **Tilt**: 25°↑ / 15°↓
- **Pan**: 180°
- **Rotation**: 10°
- **VESA**: 200 x 100, 400 x 200, 400 x 200 mm
- **Depth**: 2” (5 cm)
- **Extension**: 10°
- **Warranty**: 5 years

*Optional VESA Bracket Adaptor Kit (97-759) can be ordered separately for MIS-F interface with hole pattern of 400 x 200, 400 x 300 or 400 x 400 mm.*

LCD SIZE IS APPROXIMATION. DIMENSION IS DIAGONAL MEASUREMENT OF SCREEN. LCD SIZE MAY BE EXCEEDED AS LONG AS SCREEN WEIGHT DOES NOT EXCEED MAXIMUM WEIGHT CAPACITY OF THE MOUNT.

For availability and more information about Ergotron products, visit www.ergotron.com

Buying the right laptops is only one piece of the puzzle. Securely storing, deploying and managing those important assets while making it easy for staff is equally important. This cart’s universal interface charges and manages software on up to 20 devices (works with laptops, netbooks and tablets). Patent-pending PowerShuttle Load Sensing Technology optimizes total charge time while safely preventing electrical circuit overload by efficiently grouping the number of devices that are charged at one time. Works in any environment, including education, healthcare and enterprise applications.

Universal design
- Open-architecture design works with laptops, netbooks and tablets with displays up to 15.6”
- Country-specific power strip is provided to plug in 20 AC adapters. Unique, flexible design accommodates a variety of brick and plug styles for laptops, netbooks and tablets that won’t fit in standard outlet strips

PowerShuttle Technology
- Efficiently scans the system and distributes power to optimize total charge time for the laptops and prevent overloading electrical circuits at the same time

Durable, secure storage
- Robust key and lock assembly keeps devices secure. Double-hinged, locking steel front doors with recessed handle open 180° to reveal notebook storage shelves
- Rugged steel frame construction, steel front and rear doors, and molded fire-rated ABS exterior withstands heavy use of classroom settings
- For user and equipment safety, the entire cart is tested and certified to UL 60950 and 1667 standards

Easy to use
- Lightweight, up to 49% smaller than competitive product, this compact cart design makes it easy to safely move from room to room
- Shocks fully assembled

PowerShuttle® (PS) Tablet Charging Cart, AC

This cart’s universal interface charges up to 30 tablets and Ultrabooks™ using the products’ AC adapters. Patent-pending PowerShuttle Technology optimizes total charge time while safely preventing electrical circuit overload by efficiently grouping the number of devices that are charged at one time. Works in any environment, including education, healthcare and enterprise applications.
Sync and charge Apple® devices. Lightweight, compact, easy to maneuver, secure and cost-effective design.

### Super Compact Design
- Up to 40% smaller and lighter (unloaded) than competitive product
- Charge and sync up to 48 Apple iPad®, iPod®, and iPhone® devices.
- Compatible with both 30-pin and Lightning™ connector cables
- Optional LED Individual Status Indicators (ISI) monitor charging progress of each tablet

### Secure Storage
- Steel tube and aluminum extrusion framework; steel access doors
- Durable steel doors with three-point lock and assembly provide strong theft deterrence
- Optional Security Bracket accessory kit (97-735) provides ability to lock cart to floor or wall bracket for extra security when needed

### Certified for Safety
- Tested and certified to UL 60950-1 and UL 1667 standards, FCC requirements and all applicable country-specific regulations

Ready. Set. Charge.

Safe & Secure
- Tested and certified to UL 60950-1 standards, FCC requirements and all applicable country-specific regulations
- Six-point lock assembly provides strong theft deterrence; includes security screws to attach product to the wall
- Fan and ventilation system maintains safe operating temperature
- Ergotron not only uses UL-certified components, but goes a step further to have UL certify the entire system to guarantee safe use within the classroom, healthcare, or enterprise setting

Top-rated Sync & Charge
- Built-in syncing capability; simultaneously sync up to 10 devices by connecting your laptop via the cabinet’s USB port
- Full 2.1A charge capability

Slim & Open Design
- Fits most anywhere: very low profile – only 4” (10 cm) deep, even with access doors
- Accommodates most iPad cases – including the popular Otterbox Defender™ and Griffin Survivor™

Easy Set-up & Operation
- Choose pre-installed 30-pin or pre-installed Lightning™ cable option
- Quick, simple installation includes mounting template
- Patent-pending Show & Stow™ technology extends iPad devices to the user when the door is opened for easy storage and removal
- Easy to clean, sleek and smart design hides device and cord clutter
- Clear ISI (Individual Status Indicator) LEDs provide power and charging status of each individual device at a glance

*EXPERIENCE the difference with our Global Service Program*

Visit Ergotron.com for details about all of our service options

Ergotron’s Platinum Annual Service Contract ensures timely and safe service delivery across all Ergotron product lines.
**Certified. Lightweight. Ultrafast recharge. Long battery LiFe.**

- **Why choose a StyleView Cart powered with Lithium Iron Phosphate (LiFe)?**
  - **Extremely lightweight and adjustable**
    The LiFe power system and compact, lightweight base combine with StyleView’s ergonomic adjustability to decrease caregiver fatigue and enhance overall wellness and productivity.
  - **Ultrafast recharge ensures caregiver and cart uptime**
    A full recharge from full discharge can be completed in around two hours for typical loads. Less charging = more caregiving!
  - **Long battery ‘LiFe’ minimizes time and cost for maintenance and replacement**
    Proven to achieve thousands of cycles per lifetime and to last several years in a typical healthcare setting.
  - **Safe and certified**
    For patient and caregiver safety, the FULL cart and power system are certified to UL 60601-1.
  - **Includes FREE StyleLink with enterprise capabilities**
    Install, access and manage your StyleView power systems from a remote location across WAN, LAN, or VPN.
  - **Proven safe battery chemistry**
    Through extensive testing, Lithium Iron Phosphate is proven to be a very safe battery chemistry.

FREE, industry leading StyleLink Software with enterprise capabilities

StyleLink’s three-part software package (Enterprise, Client, Graphing Tool) offers broad system and platform compatibility for global healthcare customers deploying Ergotron StyleView Carts with power.

**Extend Asset Life Cycle**
Optimizes balance between runtime and cycle life
Helps prevent deep discharging, which maximizes battery cycle life and minimizes battery replacement cost

**Proactive Power System Management**
Eliminate surprises through use of diagnostic tools, simplifying power system management and reducing time required to fix problems
Email alerts sent by each cart at different stages of battery life facilitate proactive power system management
Remote configuration: remotely configure or change email alerts, names, passwords and communication thresholds on each cart, or a group of carts, using your MS Network

**Reduce Total Cost of Ownership**
Reduce costs for maintenance; eliminate need for expensive onsite technical support by leveraging diagnostic capabilities. Simply email StyleLink’s history data file to Ergotron Tech Support and they will help troubleshoot power system performance issues

StyleView Carts

Get real-time centralized control over mobile computing deployments across multi-facility healthcare campuses.

Plan battery replacement based on custom views or email alerts, rather than being surprised by a (higher cost) replacement situation during caregivers’ active work hours

**Enterprise Capabilities**
Remote enterprise monitor: access your carts across WAN, LAN, or VPN to get real-time information
Custom views: view those carts that meet your specific rules, e.g., carts unplugged, carts not connected, carts not reporting in the last 7 days, etc.

**Advanced Drawer Management**
Each drawer individually controlled with PIN; program locally or remotely via enterprise
Drawer event log and report capability
Two points of console access for PIN updates: Unit Clerk or IT

FREE, industry leading StyleLink Software with enterprise capabilities

Group view: organize your carts into groups and subgroups. Set views for specific areas of your facilities; troubleshoot power system performance issues

Reduce Asset Life Cycle
Optimizes balance between runtime and cycle life
Helps prevent deep discharging, which maximizes battery cycle life and minimizes battery replacement cost

The 2010 American Cancer Society study published in the American Journal of Epidemiology followed 123,216 individuals (69,776 women and 53,440 men) from 1993–2006. The alarming results:

• Women who were inactive and sat over 6 hours a day were 94% more likely to die during the time period studied than those who were physically active and sat less than 3 hours a day.

• Men who were inactive and sat over 6 hours daily were 48% more likely to die than their standing counterparts.

Findings were independent of physical activity levels (the negative effects of sitting were just as strong in people who exercised regularly).

A January 2010 British Journal of Sports Medicine article suggests that people who sit for long periods of time have an increased risk of disease. In 2010 the University of Queensland, Australia, School of Population Health reported, “Even when adults meet physical activity guidelines, sitting for prolonged periods can compromise metabolic health.”

“Sitting Disease” by the numbers

Our modern sedentary lifestyles, both at home and in the workplace, are costly for us and for our employers.

Average hours of seated commute
+ average hours of seated homelife = too much sitting!

A 2008 Vanderbilt University study of 6,300 people published in the American Journal of Epidemiology estimated that the average American spends 55% of waking time (7.7 hours per day) in sedentary behaviors such as sitting.

Care for the caregiver and back-office staff

See the payback when you stand up for your staff

For those stuck long hours sitting at a computer, standing a little more each day burns extra calories, tones muscles, improves posture, increases blood flow and ramps up metabolism.
Healthcare experience backs up our industry-leading portfolio of scalable StyleView Carts

Nimble. Personalized. Safe and ergonomic.
