Positioning your digital world

Sit-Stand Workstations & Adjustable Desks • Display Mounts • Charging Systems

ERGOTRON®
Feel the difference.

We are committed to making ergonomics affordable for computer users everywhere, helping to make lives healthier and more productive.

This commitment began back in 1982 when Ergotron was founded by Harry Sweere, pioneer and visionary author of the Video Electronics Standards Association (VESA) Flat Display Mounting Interface (FDMI) standard. Defining mounting compatibility for plasma and LCD monitors and TVs, these standards are used by the majority of manufacturers worldwide, establishing Ergotron’s long history of innovation and ergonomic mounting leadership.

This passion for human-centered designs led to the introduction of Constant Force™ (CF™) lift-and-pivot motion technology, providing more motion with less effort, and a difference you can feel. Today Ergotron has 85 issued and pending patents, including those for the first LCD articulating arms.

Ergotron offers you true ergonomic designs based on scientific anthropometric studies, accommodating up to 95% of the population. Adapting to your physical needs, you’ll find Ergotron products bring ultimate adjustability while enhancing your overall health, comfort and productivity. This is a difference you can trust.

We’re still fulfilling the mission.

Awards
Ergotron products improve the human interface with digital displays and have been recognized throughout the industry for innovative design and engineering excellence.

Lifestyle innovations for home and work
Like other members of the Nortek family, Ergotron is driven by constant innovation with a singular, unified purpose: to make our customers’ lives better. All Nortek brands are conceived of out-of-the-box thinking, fueled by cutting-edge technology and ignited by a robust management philosophy that promotes operational excellence. From product design to performance and support, every Nortek product group sets a new standard and improves how our global customers live and work.

Nortek’s five product groups include Display Mount Solutions, Residential Ventilation, Technology Solutions, Residential Heating & Cooling, and Custom & Engineered Solutions.

WorkFit- T
Invigorate your work day with this ultra simple and flexible sit-stand desktop workstation!

Tired of sitting in front of a computer all day? Ergotron’s WorkFit-T desktop workstation promotes proper ergonomic positioning and inspires a healthier sit-stand work routine. Counterbalancing mechanism uses Constant Force™ Technology to facilitate quick height adjustment; patent pending

- Stable workstation sits right on top of most surfaces 24” (61 cm) deep or larger; no mounting or clamping required
- System easily lifts straight up and down to minimize intrusion into the workspace
- Provides 15” (38 cm) of easy height adjustment
- Ships fully assembled - no tool adjustments needed – making it easy to retrofit existing spaces
- Set one or two monitors or a monitor and laptop directly onto the workstation surface; optional monitor kits sold separately
- Supports 10–35 lbs (4,5–15,9 kg) of external weight
- Keyboard moves in tandem with the worksurface and is positioned 4.5” (11,4 cm) below it
- Generous worksurface: 35” wide x 23” deep (88,9 cm x 58,4 cm)
- Five-year warranty: tested and guaranteed!

WorkFit Sit-Stand Desks

Improve energy and productivity with an ergonomic WorkFit sit-stand desk. Sit and stand throughout the workday to experience computing comfort and a healthier way to work. Patented Constant Force™ technology provides an effortless lift.

WorkFit-B — Turn an ordinary surface into an ergonomic, height adjustable workstation solution. The WorkFit-B lets you attach an existing desktop surface onto a light duty or heavy duty base to provide sit-stand options.

**WorkFit-B Sit-Stand Base LD**
24-387-200
Lift: 19.5” (50cm)
Weight capacity: ≤ 60 lbs (27.2kg)

**WorkFit-B Sit-Stand Base HD**
24-388-009
Lift: 20” (51cm)
Weight capacity: ≤ 88 lbs (40kg)

WorkFit-PD — This personal desk provides sit-stand functionality with a small, stable footprint. Choose from a wide selection of accessories to enhance your personal work style.

Worksurface: 31.5” x 23.5” (80 x 60 cm)

WorkFit-C — A petite footprint and added ease of mobility gives users flexibility along with sit-stand benefits.

Worksurface: 24” x 22.8” (60,6 x 58 cm)

WorkFit-D — The WorkFit-D Sit-Stand Desk features a spacious, solid worksurface and easy height adjustability. Add an optional Underdesk Keyboard Arm (97-582-009) and various display mounts for enhanced workflow efficiency. Four leveling glides establish a firm footing and adjust to uneven floors.

Worksurface: 47.6” x 23.5” (121 x 60 cm)

Empowering smart learning
LearnFit™ Adjustable Standing Desk

Today’s sedentary lifestyles are affecting our youth and their classroom performance. Compound this with pressures to sacrifice physical education time for more classroom time for the core subjects. Studies show that introducing low-level physical activity into the classroom has a positive impact on student health, classroom engagement and academic performance.

Transform classrooms into active learning environments with on-demand height-adjustable student desks.

- Encourages healthy student behavior that leads to physical and academic improvements
- Looking sharply down at a digital learning device puts excessive pressure on the neck. PrecisionHeight™ Technology provides a healthier way to learn – students simply adjust the height of the desktop for easier viewing and to help reduce neck strain
- Using the hand lever, each student intuitively raise and lowers the desktop to suit their own natural body needs
- No need for school staff to make adjustments before, during or after school hours
- One size fits all – height adjustment range is designed for students ages 9 through adult
- Mobile, locking casters – easily roll the LearnFit desks to quickly reconfigure classrooms for small group collaborative breakouts, and easily return to full classroom configuration when done
- Tablet slot, water bottle holder and backpack hook included

- Super-durable worksurface construction stands up to demanding classroom conditions
- Optional LearnFit Storage Bin provides three separate compartments for storing student supplies; adjustable Classroom Stool supports sit-stand activity
- Assembles in less than 60 seconds; no tools required

LearnFit®: Mobile Digital Workspace for education

A compact technology hub consolidates all your technology tools onto a single mobile platform: laptop or LCD/PU, keyboard and mouse, portable document camera, projection device and more. Several optional accessories are available to enhance functionality.

ONE charging cart fits all!
Chromebooks • Tablets • Laptops

Zip40 Charging Cart &
Zip40 Charging and Management Cart

The latest in device charging technology, the Ergotron Zip40 Charging Cart offers versatility and flexibility with the ultimate cart agility.

Featuring Ergotron’s PowerShuttle® power management technology, the system efficiently charges up to 30% faster than a standard round-robin system. With just one power cord plugged into a standard wall outlet, it safely prevents overloading of electrical circuits by automatically determining the maximum number of devices that can be charged at one time.

More CAPACITY
- Charges up to 40 tablet, Chromebook™, Ultrabook, MacBook® and laptop devices with a ≤15.6” screen size

More AGILITY
- Zip40 dual-wheel, 5” casters create a super smooth ride over a variety of flooring surfaces
- Cube-like, compact shape makes it easy to zip through tight spaces

More FLEXIBILITY
- Adjustable dividers let you customize capacity:
  ✓ Standard 1.1”-wide (28 mm) slots accommodate up to 40 devices, plus a partial shelf for extra storage
  ✓ Adjust slots to 1.9” (48 mm) to accommodate up to 30 laptops or thicker devices with large cases
  ✓ Mix and match devices; move and remove dividers
- Includes external auxiliary outlet to power peripherals
- Removable, locking rear-access door to the adapter storage area allows for easy, one-time setup and clean cable management
- Custom country-specific outlet strips include plenty of space to fit oversized wall plug or brick-style AC adapters
- Ethernet management capability also available – carts are upgradable
- Location included for installation of a Wireless Access Point (WAP not included)

More SECURITY and SAFETY
- For user and equipment safety, the entire Zip40 cart is tested and certified to UL 60950 and UL 1678 standards
- Rugged steel construction handles rigorous use and demanding conditions
- Durable steel doors include a 3-point locking mechanism with separate key lock; add padlock for additional door security
- Optional security bracket kit locks cart to floor or wall

Charge, secure and transport up to 40 devices with display sizes ≤15.6”

ONE charging cabinet fits all!
Zip12 Charging Desktop Cabinet

Like the Zip40, Ergotron’s Zip12 Charging Desktop Cabinet provides the ultimate functionality, versatility and security. Charge, secure and protect a wide variety of devices – most tablet, Chromebook™, MacBook® and laptop devices with display sizes up to 14”.

Its flexibility and ability to mix and match up to 12 devices ensures your charging cabinet will meet your needs today and well into the future. It features adjustable dividers so you can easily configure the slots to the size you need.

Durable steel doors and a 3-point locking mechanism ensures your devices are secure; add a padlock for additional door security.

Because the cabinet is fully safety certified, it’s a smart choice for education, healthcare and enterprise applications.

Compatible Devices

- Tablets, Chromebook, Ultrabook, MacBook and laptop devices with ≤ 15.6” LCD size with dimensions up to maximum 17.1“W x 11.2”H (43,4 x 28,4 cm) including case and power cord plug
- (Verify device dimensions for compatibility)

- Most tablets and Chromebooks up to maximum dimensions 11.9“W x 8.9”H x 1.0”D (30,2 x 22,6 x 2,5 cm) including case.
- (Verify slot size for compatibility)

Charge, secure and protect up to 12 devices with display sizes ≤14”

NEW!
Easy Charge Kit for Samsung Galaxy Tab Active
97-944-085

### Zip12 Charging Wall Cabinet

**Low-profile, wall mount design • Open architecture**

This slim cabinet is perfect for charging and securing up to 12 tablets (including Surface, Android and iPad) and Chromebook devices with screens up to 12”.

- Space saving: protrudes less than 6” (15,2 cm) from the wall; smooth sliding door provides easy access to devices and stays within the sleek profile
- Open architecture: compatible with a wide variety of manufacturers like Microsoft, Samsung, Apple, Lenovo, HP, Dell, Amazon, Asus, Acer and more
- Show & Stow™ tilting tablet trays make loading and unloading devices simple
- Six-point locking bracket keeps devices safe and secure
- Entire cabinet is tested and certified to UL 60950

#### Charge

- Custom country-specific outlet strips include plenty of space to fit oversized wall plug or brick-style AC adapters; use adapters that come with devices
- AC

#### Screen Size

- ≤ 15.6”
- ≤ 14”
- ≤ 12”

#### # of Devices

- Up to 40 with 1.1”-wide (28 mm) slots; up to 30 with 1.9”-wide (48 mm) slots
- Up to 12 with 1.1”-wide (28 mm) slots; up to 8 with 1.9”-wide (48 mm) slots
- Up to 12

#### UL

- Full UL 60950 and UL 1678 certification
- Full UL 60950 certification
- Full UL 60950 certification

#### Security

- 3-point locking steel doors with key lock
- 6-point steel doors with key lock

#### Warranty

- 10 years workmanship, 2 years electrical, 1 year cables (power and Ethernet)
- Five (5) years; two (2) years for power module; one (1) year for other electrical components

Eris Pty Ltd 02 9481 7420

Charging Systems
PowerShuttle® Carts
Laptop Charging • Laptop Management

Universal design
- Accommodates up to 20 laptops with screen sizes ≤15.6"
- Two country-specific power strips are provided to plug-in AC adapters of varying sizes and shapes

PowerShuttle technology
- Innovative PowerShuttle technology automatically optimizes total charge time for up to 20 devices, and safely prevents overloading electrical circuits by efficiently grouping the number of devices that are charged at one time
- Charging time is reduced by approximately 30% over competitive round-robin charging systems

Durable, secure storage
- Robust lock and key assembly keeps devices secure
- Double-hinged, locking steel front doors with recessed handle open 180° to reveal notebook storage shelves
- Rugged steel frame construction, steel front and rear doors, and molded fire-rated ABS exterior withstand heavy use
- Secure back compartment provides IT access to AC adapter storage and power strips. Clean, neat cable management runs power to units
- Lightweight and compact carts are easy to move safely from room-to-room
- For user and equipment safety, the entire cart is tested and certified to UL 60950 and 1678 standards

Real-time productivity with multiple monitors

Spending a lot of time comparing data and toggling between applications? Minimizing, maximizing, resizing and moving between windows? Increasing your screen “real estate” allows you to complete tasks faster, and more efficiently, with average productivity increases of 20% or more. To maximize productivity, ergonomics and multiple monitors should be part of the equation.

See “Dare2Dual” movies.ergotron.com
Verifiable difference with dual displays

Our line of LX dual desk-mounted arms provide maximum adjustability for better ergonomics and enhanced productivity – especially when using more than one display.

**LX Dual Side-by-Side Arm**

- **Part #** (color): 45-245-026 (polished aluminum)
- **Typical LCD Size**: ≤ 27”
- **Weight Capacity**: 5–20 lbs (2.3–9.1 kg) per arm
- **Lift**: 13” (33 cm)
- **Tilt**: 75° / 70° / 5°
- **Pan**: 360°
- **Rotation**: LCD 360°
- **VESA**: MIS-D
- **Warranty**: 10 years

---

**LX Dual Stacking Arm**

- **Part #** (color): 45-248-026 (polished aluminum)
- **Typical LCD Size**: ≤ 27”
- **Weight Capacity**: 5–20 lbs (2.3–9.1 kg)
- **Lift**: 13” (33 cm)
- **Tilt**: 75° / 70° / 5°
- **Pan**: 360°
- **Rotation**: LCD 360°
- **VESA**: MIS-D
- **Warranty**: 10 years

---

**Multi-monitor outperforms single monitor**

**Productivity benefits**
- 33% fewer errors
- 18% faster in errorless editing of multiple tasks
- 16% faster edits throughout the task
- 10% more errorless edits generated
- 6% quicker access to tasks (opening, sizing, aligning windows, etc.)

**Usability benefits**
- 45% easier task tracking (finding windows, referencing text, etc.)
- 38% easier to move sources of information around
- 32% faster to perform tasks
- 29% more effective for tasks
- 24% more comfortable to use in tasks
- 19% easier to recover from mistakes
- 17% easier to learn how to accomplish the task

Sleek, streamlined and ready for productivity

Our line of LX desk mounted arms provide maximum adjustability for more comfortable computing. Easily position your large display (up to 46”) exactly where you want it and reclaim valuable workspace by doing so. Sleek and beautiful, LX Arms are constructed from durable polished aluminum.

**WorkFit-LX**

The modular and flexible design of the WorkFit-LX fits almost any space while enabling personalized ergonomic positioning. It offers unparalleled range of motion, easily accommodating a user’s sitting or standing position. Features 20” (51 cm) of height adjustment, 62” (157 cm) of side-to-side motion and 33” (84 cm) of extension.

**Thin Client Mount**

Offers an easy method for integrating a thin client or small CPU into your workspace. 80-107-200
Professional-grade ceiling mounts

With versatility and flexibility built right in, these professional-grade ceiling mounts are ideal for any ceiling application – whether TV viewing or digital signage.

**LX Wall Mount System**

**LX Sit-Stand Wall Mount Highlights**

- Ultimate flexibility of monitor and keyboard positioning enhances personal interaction between the caregiver, patient and the patient’s data
- 20” (51 cm) height range allows users to switch between sitting and standing positions for a healthier way to work
- Ergonomic back-tilt keyboard tray ensures wrists remain in a neutral position to increase comfort and help avoid repetitive-stress injuries
- Keyboard platform is very stable for extensive data entry and tested to be 3X more rigid than other keyboard arms
- Rotation Stop on wall mount base limits turn of extension base connection to 180°, preventing extension from contacting wall
- Secure installation – locking connections between arm, extension and base

Visit ergotron.com for complete information on LX Wall Mount Systems
Serving the healthcare industry for more than 20 years

With more than 30 years of designing ergonomic solutions for computer users worldwide – and 20 years specifically in healthcare – Ergotron is uniquely qualified to help your entire facility enhance personal interaction, expand the reach of care and improve operational efficiency.

Our portfolio of products serving the healthcare industry include:

- **Point-of-care wall mount products** to enhance personal interaction between caregivers, their patients and patient data
- **Point-of-care StyleView® Carts** designed for nurses and personalized to enhance workflow and caregiving
- **Telehealth StyleView Carts** that are easy to use and affordable to implement
- **Charging systems** that charge, sync and/or secure multiple mobile devices; available as carts, wall mounts or desktop solutions
- **Ergonomic workstations** provide computer users with comfort and mobility for a healthier way to work

---

### OSHPD

**Office of Statewide Health Planning and Development**

Ergotron’s wall mount products received OSHPD OPA Pre-approval numbers for mounting in hospitals and healthcare facilities throughout California on October 13, 2009. These standards help ensure patient safety during an earthquake and help make it possible for facilities to continue to function and care for the injured after an earthquake.

Sit-stand ergonomics – secure, compact and enclosed

Perfect for space-constrained patient rooms

StyleView Enclosures provide a smooth vertical height adjustment and folds up into a slim, compact unit when not in use.

Sit-stand ergonomics

Move from a sitting to a standing position whenever you want. True ergonomic designs provide a healthier, more comfortable way to work.

Extreme security and stability

A keyless locking mechanism protects patient data for compliance with privacy requirements and a unique cable management system conceals and organizes the cords, making cleaning a snap! Its stable, slide-out keyboard can support extensive data entry.

Typical LCD Size

- Maximum monitor physical dimensions: 20.5" W x 13.5" H x 2.0" D (52.1 x 34.3 x 6.4 cm). Monitor depth greater than 2.5" (6.4 cm) is allowable, however screen will protrude beyond profile of unit in such cases.
- Maximum monitor physical dimensions: 20.7" W x 14.7" H x 2.8" D (52.6 x 37.3 x 7 cm). Assumes VESA hole pattern is centered on the back of the display.

LCD Size is approximation. Dimension is diagonal measurement of screen. LCD size may be exceeded as long as screen weight does not exceed maximum weight capacity of the mount.

Weight Capacity

- Weight capacity represents total load, including monitor, contents of keyboard tray, mouse pouch and scanner holder.
- Maximum load capacity: monitor pivot: 18 lbs (8.2 kg); thin client device compartment: 20 lbs (9.1 kg); door/worksurface: 50 lbs (22.6 kg).

Worksurface with pull-out keyboard tray facilitates caregiver workflow

1. Patented Constant Force™ lift-and-pivot motion technology provides premium 25” (63,5 cm) LCD height adjustment, portrait-to-landscape rotation and 30° tilt
2. Durable, easy-to-clean exterior composed of aluminum and high-grade plastic
3. Integrated mouse and barcode scanner holder provide easy access
4. Fold-down worksurfacekeyboard tray to support workflow needs. Worksurface is 22.75”W x 10.6”D (57,8 x 26,9 cm). Keyboard tray is 18.6”W x 9”D (47,2 x 22,8 cm)
5. Ergonomic back-tilt keyboard tray ensures wrists remain in a neutral position during data entry. Includes slide-out mouse tray

≤ 24” ≤ 24” ≤ 24” ≤ 24”

LCD SIZE IS APPROXIMATION; DIMENSION IS DIAGONAL MEASUREMENT OF SCREEN.
LCD SIZE MAY BE EXCEEDED AS LONG AS SCREEN WEIGHT DOES NOT EXCEED MAXIMUM WEIGHT CAPACITY OF THE MOUNT.

For display compatibility, visit www.ergotron.com
Clean, concealed and neat routing of cables through the expansive cable management system

Extend LCD and keyboard up to 43” (109 cm) from wall; fold equipment back out of the way when not in use. With worksurface in storage position, system depth is as little as 8” (20.3 cm). With keyboard in storage position, system depth is as little as 12” (30.5 cm)

Optional Extender Arm increases range of motion for even greater reach
Compact ergonomics; extremely low profile

Ideal for patient rooms and high-traffic areas, StyleView Vertical Lifts give caregivers ergonomic comfort in a compact, low-profile wall mounted workstation. In a patient room setting, the pan of the keyboard and display promotes interaction, and the slide-out keyboard tray provides caregiver with comfortable data entry. Units fold up to as little as 4” (10,2 cm) deep when not in use.

Sit-Stand Vertical Lifts allow users to adjust between sitting and standing working heights. The entire system – monitor, keyboard and mouse – moves vertically 18” (46 cm) with a single, smooth motion to accommodate the heights of multiple users.

Nurses, meet your new StyleView® Cart

Personalize your cart to suit your team’s workstyle and flow. That’s the genius behind our 6th-generation StyleView carts.

We’ve been listening. You’ll find all the great features that have made StyleView a market leader. Now you have the broadest options to create a comfortable, fully adjustable medical cart – one that supports you and the care you give.

StyleView Transfer Cart

A multi-purpose healthcare cart designed to streamline caregiver workflow and complement StyleView carts. From pharmacy to patient floor, the StyleView Transfer Cart securely stores, transports and dispenses medications and other supplies. (24-421-062)

Key features include:

- Holds up to 120 small or 40 large drawers, accessible from either side of cart
- Supports 20 or more StyleView carts depending on drawer configuration
- 36 shelves are removable or repositionable to accommodate envelope drawer or taller items
- Top cover supports 25 lbs (11.3 kg) and its 41”-high (105 cm) surface is a convenient operational height when standing; raised edges prevent spills
- Secure: doors unlock electronically using programmable 5-digit PIN or via manual lock
- Premium, 5” (13 cm) swiveling casters move the cart with ease over thresholds and any floor type
- Includes a scanner holder and can support an Ergotron LX LCD Arm or laptop tray
- Smooth exterior surface makes cleaning easy

Your cart. Your way.
Use the Cart Finder tool on ergotron.com to find your perfect cart.

Choose display mount: LCD Arm, LCD Pivot, Laptop

Choose powered or non-powered:
Lithium Iron Phosphate (LiFe), Sealed Lead Acid (SLA), non-powered

Choose storage options:
no drawers, manual key-lock drawers, secure electronic drawers with keypad

Accessories: Storage Bin, Sani-Wipes Holder, Scanner Shelf and more

StyleView Carts: Superior ergonomics, functionality and maneuverability

Add dependable power to non-powered StyleView Carts*

Enhancing productivity in healthcare environments is our goal. Ergotron partners with three manufacturers to offer add-on power options for existing non-powered StyleView carts. Choose the product that best fits your workflow and budgetary requirements.

**PREMIUM**

**SV LiFe Power Upgrade System**

- Manufactured by Scott Clark
- High capacity, flexible, portable
- Ultra-fast, built-in charging on board
- Powers everything on the cart
- Lithium-Iron Phosphate is the safest battery chemistry
- State-of-charge LED indicators
- Availability:
  - US/CA/MX 97-837
  - UK/HK/MY/SG 97-893
  - Saudi/UK 97-895
  - EU 97-894

**MID-LEVEL**

**SV Hot Swap Power System**

- Manufactured by Anton Bauer
- Charges battery on or off the cart
- Powers everything on the cart
- Wall cabinet charger uses UV LED to disinfect batteries
- Charge up to three batteries
- Includes Battery Pain Scale™
- Available NORTH AMERICA only:
  - Battery 97-929/Charging Cabinet 97-930
  - Interface 97-931/Power Supply 97-932

**ENTRY-LEVEL**

**SV DC Power System**

- Manufactured by Amstron
- Low-cost DC power
- Small form factor
- On-board, all-in-one charger
- Selectable output voltage
- Mounts on the front or back
- Available WORLDWIDE:
  - Laptop version 97-943
  - LCD+CPU version 97-942
  - Remote User Interface 97-953
  - (Country-specific power cords sold separately)

* If you need a cart with a built-in power system, choose a LiFe-powered or SLA-powered StyleView Cart. Purchasing an Ergotron powered cart is the most cost-effective solution and instantly reduces the total cost of ownership.

For display compatibility, visit www.ergotron.com
**LiFe or SLA-POWERED CARTS:** SV44 (with drawers) & SV42 (no drawers)

---

**Why choose a StyleView powered with Lithium Iron Phosphate (LiFe)?**

Extremely lightweight and adjustable
The LiFe power system and compact, lightweight base combine with StyleView’s ergonomic adjustability to decrease caregiver fatigue and enhance overall wellness and productivity

Ultrafast recharge
A full recharge from full discharge can be completed in around two hours for typical loads.

Long battery ‘LiFe’ minimizes time and cost for maintenance and replacement
Proven to achieve thousands of cycles per lifetime and to last several years in a typical healthcare setting

Safe and certified
For patient and caregiver safety, the FULL cart and power system are certified to UL 60601-1

Includes FREE StyleLink software
Install, access and manage your StyleView power systems from a remote location across WAN, LAN or VPN

Proven safe battery chemistry
Through extensive testing, Lithium Iron Phosphate is proven to be a very safe battery chemistry

---

**Telemedicine Bin Accessory for SV44 Series**

This accessory provides connectivity and storage for USB diagnostic devices. The bin can be configured with up to three individual compartments, providing ample and secure space for devices and their cords, with one USB port in each compartment. Two additional ports are conveniently located on the exterior of the housing. (97-854)

Free, industry-leading StyleLink software with enterprise capabilities

StyleLink’s three-part software package (Enterprise, Client, Graphing Tool) offers broad system and platform compatibility for global healthcare customers deploying Ergotron StyleView Carts with power.

Extend Asset Life Cycle
Optimizes balance between runtime and cycle life

Proactive Power System Management
Eliminate surprises through use of diagnostic tools, simplifying power system management and reducing time required to fix problems

Reduce Total Cost of Ownership
Reduce costs for maintenance; eliminate need for expensive onsite technical support by leveraging diagnostic capabilities. Simply email StyleLink’s history data file to Ergotron Tech Support and they will help troubleshoot power system performance issues

Additional storage and accessories for StyleView Carts

Visit www.ergotron.com for complete listing of StyleView storage and accessory options

* Ergotron sells brackets to attach to open-source products but does not sell the products themselves.

Esis Pty Ltd   02 9481 7420
Easy and affordable telehealth options from Ergotron Healthcare

Healthcare services delivered at anytime, from anywhere

- Expands access by allowing physicians and health facilities to extend their reach without geographic or socioeconomic limitations
- Brings specialization to rural, remote, underserved and/or senior populations
- Manage costs – can provide consistent, lower-cost care to patients with chronic diseases
- Promotes sharing of staff; reduces travel
- Increases patient satisfaction and trust because it may help to lower stress, replace travel, reduce costs of care and deliver remote expertise

Learn more about expanding the reach of care at healthcare.ergotron.com
StyleView Telemedicine Carts

StyleView Telemedicine Carts are specifically designed and configured to support the increasing demands of telehealth – the use of telecommunication technologies for remote patient care. Telemedicine can expand care by enabling connection and collaboration with specialists or teams, regardless of their physical locations.

Open architecture
Allows for easy integration of standard equipment

Lots of connectivity
A total of 5 USB ports are integrated into cart (3 within bin and 2 on the back side), 1 ethernet port is available on the side of the head unit

Everything you need
Camera and Codec/CPU support, secure and ample storage, connectivity and power outlets

StyleView quality
Hospital-grade construction, ergonomic and secure

Worldwide availability
Safety certified
Entire cart and power system is certified to UL/EN/IEC 60601-1 and CAN/CSA C22.2 No.601.1 M90. (Other country-specific certifications currently pending)

Visit www.ergotron.com for all StyleView Telemedicine Carts, configurations, accessories and country-specific part numbers
StyleView Telepresence Carts
(North America only)

Telepresence allows medical professionals to conduct ‘virtual’ patient appointments easily and cost-effectively. This capability is particularly effective for patients with physical limitations, chronic illnesses and/or transportation issues, so it’s ideal for in-home care or care facilities.

StyleView Telepresence Upgrade Kits:
97-870 SINGLE MONITOR
97-871 DUAL MONITOR
97-872 BACK-TO-BACK MONITOR

* Cart requirements:
Non-powered / LCD pivot with 1 drawer / SV43-1310-0
SLA-battery powered / LCD pivot with 1 drawer / SV44-1311-1

StyleView Telepresence Cart
(Available worldwide)

Telepresence Kits let you easily convert an existing StyleView cart* for use in telepresence applications – combining the power of videoconferencing with the point-of-care benefits of StyleView. Upgrade kits include a large storage drawer (with divider and keys), travel stop, camera shelf for video/web camera, and a Codec/CPU holder. Then choose from single, dual or back-to-back monitor options.

StyleView Telepresence Carts
(Mobility with versatility)

Stretch your investment by supporting a range of projection and videoconferencing needs throughout the facility.

Neo-Flex MediaCenters feature ease of mobility, 90° display rotation, 20” (51 cm) of effortless height adjustment and 20° independent display tilt.

Optional Camera Shelf Kit (97-491-085) creates a mobile videoconferencing solution that the entire facility can easily use.

Improve efficiency, increase production
Outfit an entire facility to support your lean manufacturing initiatives. Ergotron manufactures computing mounts that are secure and rugged to help protect your hardware investment while ergonomic designs help ensure employees’ health. That’s real-time adjustability and mobility to help extend staff and capital resources.

Differentiation
Instant adjustability facilitates better Electronic Work Instruction (EWI) by bringing data to where individual operators need it most.

Efficiency
Studies show significant productivity increases where employees are provided with well-designed ergonomic workstations.

Return
Modular and mobile products occupy little or no floor space; easily configure or reconfigure to meet a wide range of worker or application needs.

OEM opportunities
Using our proprietary technology, Ergotron serves OEM customers that are among the world’s largest selling brands. Our China facility performs 100% end-of-line testing, life-cycle testing on each lot, and other in-process tests that ensure the highest quality products.

Environmentally responsible
Your Ergotron mounting solution complies with all international environmental regulations related to its design, manufacture and packaging.

Manufacturing excellence
Certified to ISO 9001:2008. This certification demonstrates Ergotron’s commitment to employing best practice procedures in our facilities.

Quality tested
Our products undergo a testing regimen that is unmatched in the industry. Ergotron strives to provide the highest levels of trouble-free field performance and unsurpassed product longevity, delivering peace of mind to both resellers and customers.

Notebook ergonomics
If computing for longer than an hour or two, take the following steps for ergonomic wellness: elevate your laptop so you can see the screen without bending your neck; connect a separate keyboard and place it where wrists are flat while shoulders and elbows are relaxed; pay attention to your posture. For a quick solution, check out our Neo-Flex Notebook Lift Stand.

Ergotron video display mounts are compliant with mounting interface standards set by the Video Electronics Standards Association (VESA).

Customer service and product support:

that’s second to none

Expect a superior customer experience when you choose Ergotron. Our quality products are backed by specially trained support professionals and optional extended service programs that protect your investment and optimize your on-going product performance.

Customer care includes:

800# support line
Live 24/7 support in English; support during country hours in English, Spanish, French, Dutch, Italian, Russian, German, Greek, Mandarin and Japanese

Chat and email support
Our specialists connect with you real-time via live chat and email

Technical support
Rigorously trained technicians work with you to troubleshoot product and installation issues, manage service contracts, handle dispatching and answer/resolve warranty questions and issues

Sales support for resellers
Our field service group supports regional territory sales, and also participate in customer events with TESS (Ergotron’s Traveling Equipment Solutions Showroom)

Extended Global Service Programs protect your investment
and ensure optimal product performance

A wide range of extended Global Service Programs are available to provide additional support and benefits:

Site readiness

Fast, efficient equipment installation and integration
Certified technicians conduct and manage every phase of product installation (including hardware integration, adjustments and computer installation with cable management)

Preventive maintenance and extended warranties
Optimal product performance for increased uptime

Improved asset management
Lower total cost of ownership; extended product life

Enhanced in-house product expertise
Training and transfer of technical knowledge to your internal staff

Equipment audit and health assessment
Receive an accurate inventory and health assessment of all deployed Ergotron equipment and assets.

Next-business-day (NBD) service contracts
Receive NBD service from our network of certified providers to minimize equipment downtime. Various contract levels are available to meet your unique needs: Bronze, Silver, Silver+, Gold and Platinum

Annual contracts and planned services
Options range from a single preventive maintenance visit to a 5-year complete service contract

Product recycling
Ergotron encourages environmental responsibility by offering a recycling program for our (and even our competitors’) products

100% satisfaction—guaranteed!
Research shows sitting too much is unhealthy. Unfortunately, standing all day isn’t practical either. **Answer:** Get an affordable sit-stand workstation and move freely between sitting and standing throughout your day. You’ll burn extra calories, tone muscles, improve posture, ramp up your metabolism and be more productive!

“Epidemiologic evidence suggests that the reductions in sitting at the workplace could potentially have considerable impact on cardiovascular disease and type 2 diabetes prevention.”

Genevieve Healy, PhD, The University of Queensland, Australia
