

5A/50A REVENUE GRADE SPLIT CORE CURRENT TRANSFORMERS

DENT's SRS Series hinged split-core current transformers are designed for Revenue Grade applications that require maximum accuracy and precision. The superior performance, robust design, and unique shrouded snap, lock & tilt top of the SRS Series CTs make them ideal for field installation in high accuracy current measurement applications such as energy and demand metering, tenant submetering and load surveys. Revenue Grade performance of these CTs meets or exceeds the accuracy specifications for IEC 61869-2 Class 0.2, IEC 60044-1 Class 0.3, and IEEE C57.13 Class 0.3.

The SRS Series CTs are UL2808 and CSA C22.2 No. 61010-1 listed as stand-alone products, CE marked, RoHS compliant, and are 600V CAT III rated devices. They are available for current inputs up to 50 Amps with 8 foot long, 18 AWG MTW UL1015 twisted pair leads.
